

Whitepaper

So we sat down to decide what to do about the hackaton.

Obviously we had too many beers around us and we decided to start drinking before reading.

too many beers in, we saw the first sentence

BRLO's unofficial motto – "Save the Planet! It's the only one with beer."

We decided to stop there and try to fix this.

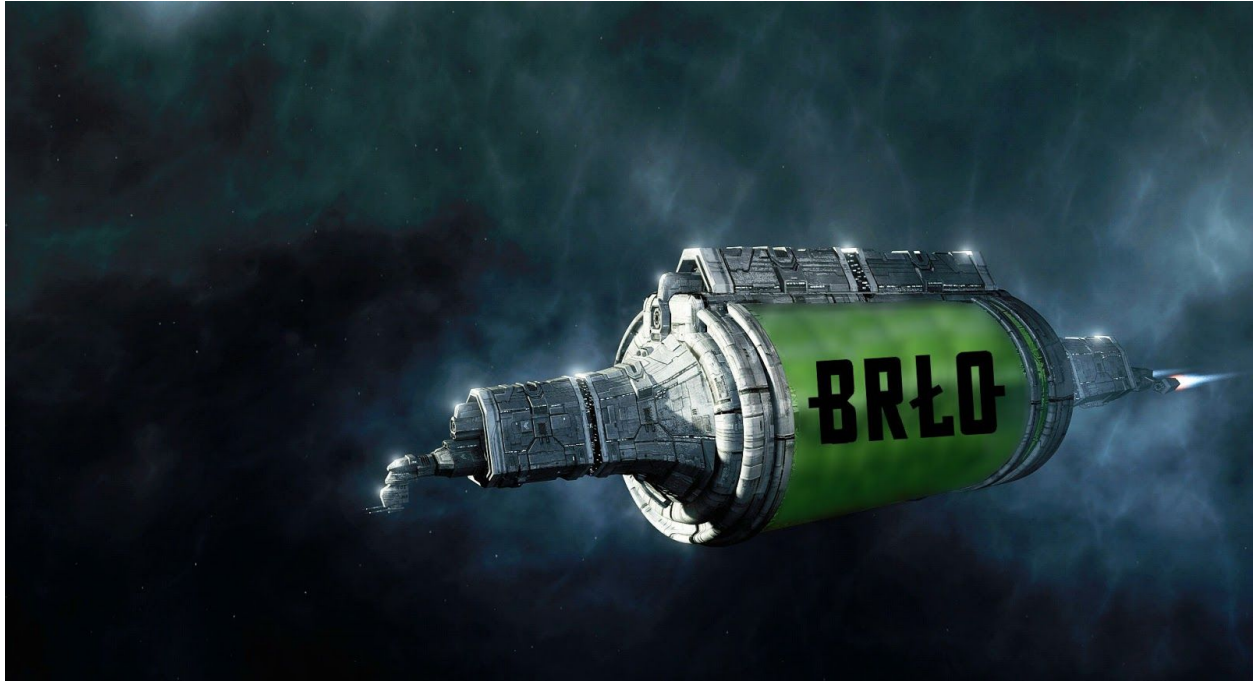

Step 1

Voyager probes with craft beer manual

Step 2

Craft beer terraform ships

Elon Musk is trying to go to mars but why go there is there is no beer?

This rocket contains a self sustainable beer factory with

Since we are making German beer and not american beer, <insert piss joke>

Step 3

Innovative supply chain

Step 4

Brew Coin

Step 5

Farm to Glass
